ADDITIONAL TERMS AND CONDITIONS TO VALIDOO SUPPLIER - VERIFICATION OF SYSTEM

1. Introduction

1.1 This document contains the terms and conditions for GS1 Sweden AB's ("GS1") service verification (validation) of the system to be used to send digital item information to Validoo. "System", as referred to in these terms and conditions, means a software solution, app, web service or equivalent.

1.2 The service is an additional service to VALIDOO SUPPLIER. As a condition for GS1's provision of the service to the Customer, the Customer must have an agreement with GS1 regarding VALIDOO SUPPLIER.

1.3 In addition to these terms and conditions, the terms and conditions for VALIDOO SUPPLIER shall apply in applicable parts and any reference to VALIDOO SUPPLIER shall apply correspondingly to the verification service.

2. Conditions for verification

2.1 As a condition for the service, the Customer shall (i) have a designated GS1 Company Prefix in order to be able to register a GLN in Validoo as an identification of the Customer; (ii) have personnel resources (employees or hired personnel) with sufficient capabilities regarding development of the specific technical format; (iii) comply with the requirements regarding system as well as other requirements, in accordance with the description of the verification process on www.gs1.se.

3. GS1' s verification obligations

3.1 GS1 shall review messages with digital item information submitted by the Customer within the framework of the verification process and shall provide feedback on the result through email message to the Customer within reasonable time, however at the latest within 10 working days. Provided that the result from the verification process is not approved, GS1 will notify the Customer in writing that additional work is needed for the result to be approved. Any additional work with the verification will be charged on time and material according to GS1's price list.

4. Changes of the verification process and re-verification

GS1 reserves the right to make changes in the process for verification. In addition, GS1 reserves the right to require re-verification of the Customer's system if the system, according to GS1's reasonable opinion, shows such deficiencies after approved verification that re-verification is necessary. This is for example the case if messages containing digital item information which are incompliant with the prescribed requirements are submitted to GS1. For each verification process a new Verification fee is charged.

5. Charges and terms of payment

5.1 As compensation for verification of the Customer's system, the Customer shall as a one-off payment pay a verification fee to GS1 (the "Verification fee"). The Verification fee is charged for each verification performed. In addition, the Customer shall also pay a recurring yearly fee (the "Service fee"). Any additional work performed in accordance with section 3.1 will be charged on time and material according to GS1's price list. A description of what is included in the Verification fee and the Service fee as well as applicable prices is published on www.gs1.se. Terms of payment is thirty (30) days net.
