1. Introduction

This guideline has been created to ensure that legislated information regarding fish traceability is completed. The guideline contains attributes for traceability of fish that, for legal reasons, need to be communicated digitally via Trade Item Information (in addition to other mandatory attributes).

Read more and see which products the regulation covers on the [Swedish Agency for Marine and Water Management's website](#).

2. Attributes used in Trade Item Information to comply with fish traceability regulation

- **Class:** FishReportingInformation
- **Definition:** The FAO 3 Alpha code of the species of fish for fish and seafood
- **Example:** COD
- **Remark:** Indicate the three-digit FAO Alpha code in UPPERCASE

2.7 T4229 Species for fishery statistics purposes name ([BMS ID 912](#))

- **GDSN name:** speciesForFisheryStatisticsPurposesName
- **Class:** FishReportingInformation
- **Definition:** The scientific name of the seafood.
- **Example:** Gadus morhua

2.8 T4401 Fish seafood presentation code ([BMS ID 7213](#))

- **GDSN name:** fishSeafoodPresentationCode
- **Class:** FishReportingInformation
- **Definition:** The code that indicates the state or form of a fish/seafood product as presented to the consumer, possibly as a result of post-catch processing (e.g., tail removed, gutted, or filleted)
- **Example:** FILLETED – Filleted
- **Remark:** Multiple presentation forms can be indicated for the trade item; the attribute is repeatable.

2.9 T4230 Catch method code kod ([BMS ID 914](#))

- **GDSN name:** catchMethodCode
- **Class:** FishCatchInformation
- **Definition:** The code indicating what type of fishing gear was used to catch fish and seafood
- **Example/Exempel:** 03 – Trawls
- **Remark:** Multiple catch methods can be indicated for the trade item; the attribute is repeatable. At least one value must be numeric.

2.10 T4280 Catch area code ([BMS ID 6147](#))

- **GDSN name:** catchAreaCode
- **Class:** FishCatchInformation
- **Definition:** The sea zone in which the seafood in the trade item was caught
- **Example:** 27.2.a – Norwegian Sea (Division 27.2.a), 27.2 – Norwegian Sea, Spitzbergen, and Bear Island (Subarea 27.2), 27 – Atlantic, Northeast
